

- All fixtures have 2 mounting points
- Cubra mounting points are inset from ends, chart below shows center to center of mount points
- When using continuous runs, lens breaks will occur at every joint, joints are 3/16" thick
- Flat endcap adds 3/8" per end, all other add 1-1/4" per end.
- One remote box will be provided with each fixture regardless if it is an individual or in a run. For example a 9' run of (5'+4") will require 2 power drops and 2 non-power drops. Specifying a battery or emergency circuit will require additional remote boxes.

Individual Fixtures

LENGTH	UNIT	MOUNTING SPACING
1		8" center to center
2		20" center to center
3		24" center to center
4		24" center to center
5		48" center to center
6		48" center to center
7		48" center to center
8		48" center to center

Row Breakdowns

LENGTH	FIXTURES	BREAKDOWN
9	5' + 4'	
10	5' + 5'	
11	6' + 5'	
12	6' + 6'	
13	7' + 6'	
14	7' + 7'	
15	8' + 7'	
16	8' + 8'	
17	6' + 5' + 6'	
18	6' + 6' + 6'	
19	6' + 7' + 6'	
20	7' + 6' + 7'	
21	7' + 7' + 7'
