

LINERO

P I N N A C L E
ARCHITECTURAL LIGHTING®

A brand of  legrand

LINERO perfectly sculpts the light it produces while staying extremely efficient in any configuration.

DESIGNED FOR PRECISION

Everything about LINERO is precise — from the slim housing profile to the functional distribution options. The slender architectural form ensures consistent, even radiance on every surface, no matter which distribution you specify. Choose from two minimalistic profiles and one of three standard distribution options, or create a custom direct and indirect output combination with the dual source housing.

L6

L8

LOOKING FOR PERFORMANCE?

LINERO is available in a single source or dual source configuration. The single source housing is available in three standard optical arrangements: 100%, 70%, or 40% downlight. The dual source housing can be specified exactly how you need it to function and is available in standard configurations found on the specification sheets.

The engineered optics, unique for each housing size and distribution option, allow for extraordinary control when it comes to the precise formation of the light in a space.

L6DI-A-40-840HO
 40% Direct, 60% Indirect
Lumens/ft 850
Lumens/watt 151.7

L6DI-A-70-840
 70% Direct, 30% Indirect
Lumens/ft 600
Lumens/watt 103

L6DI-A-BW-840VHO-840VHO
 Dual Output, Batwing Indirect
Lumens/ft
 Direct - 1250, Indirect - 1250
Lumens/watt 99.6

LINERO fixtures are SmartEnabled™ for sensors included in our SmartSolutions offering. See the Spec Sheet for the most up to date selections.

JOINING

Available in 4', 6', and 8' individual fixtures, LINERO is field joinable, which allows for quick, easy installation to create a balanced look with linear runs.

MOUNTING

Both LINERO 6 and 8 can be specified with single AC Cable mounting or a wall mount bracket to keep the look consistent in every application.
