CLEAN EFFECTIVE LIGHT

TESA by Pinnacle Architectural Lighting is a slender, linear luminaire that produces a clean, indirect light source fit for any architectural space.

The indirect distribution allows for even, wide-spread illumination across the ceiling and a soft, effective downlight.

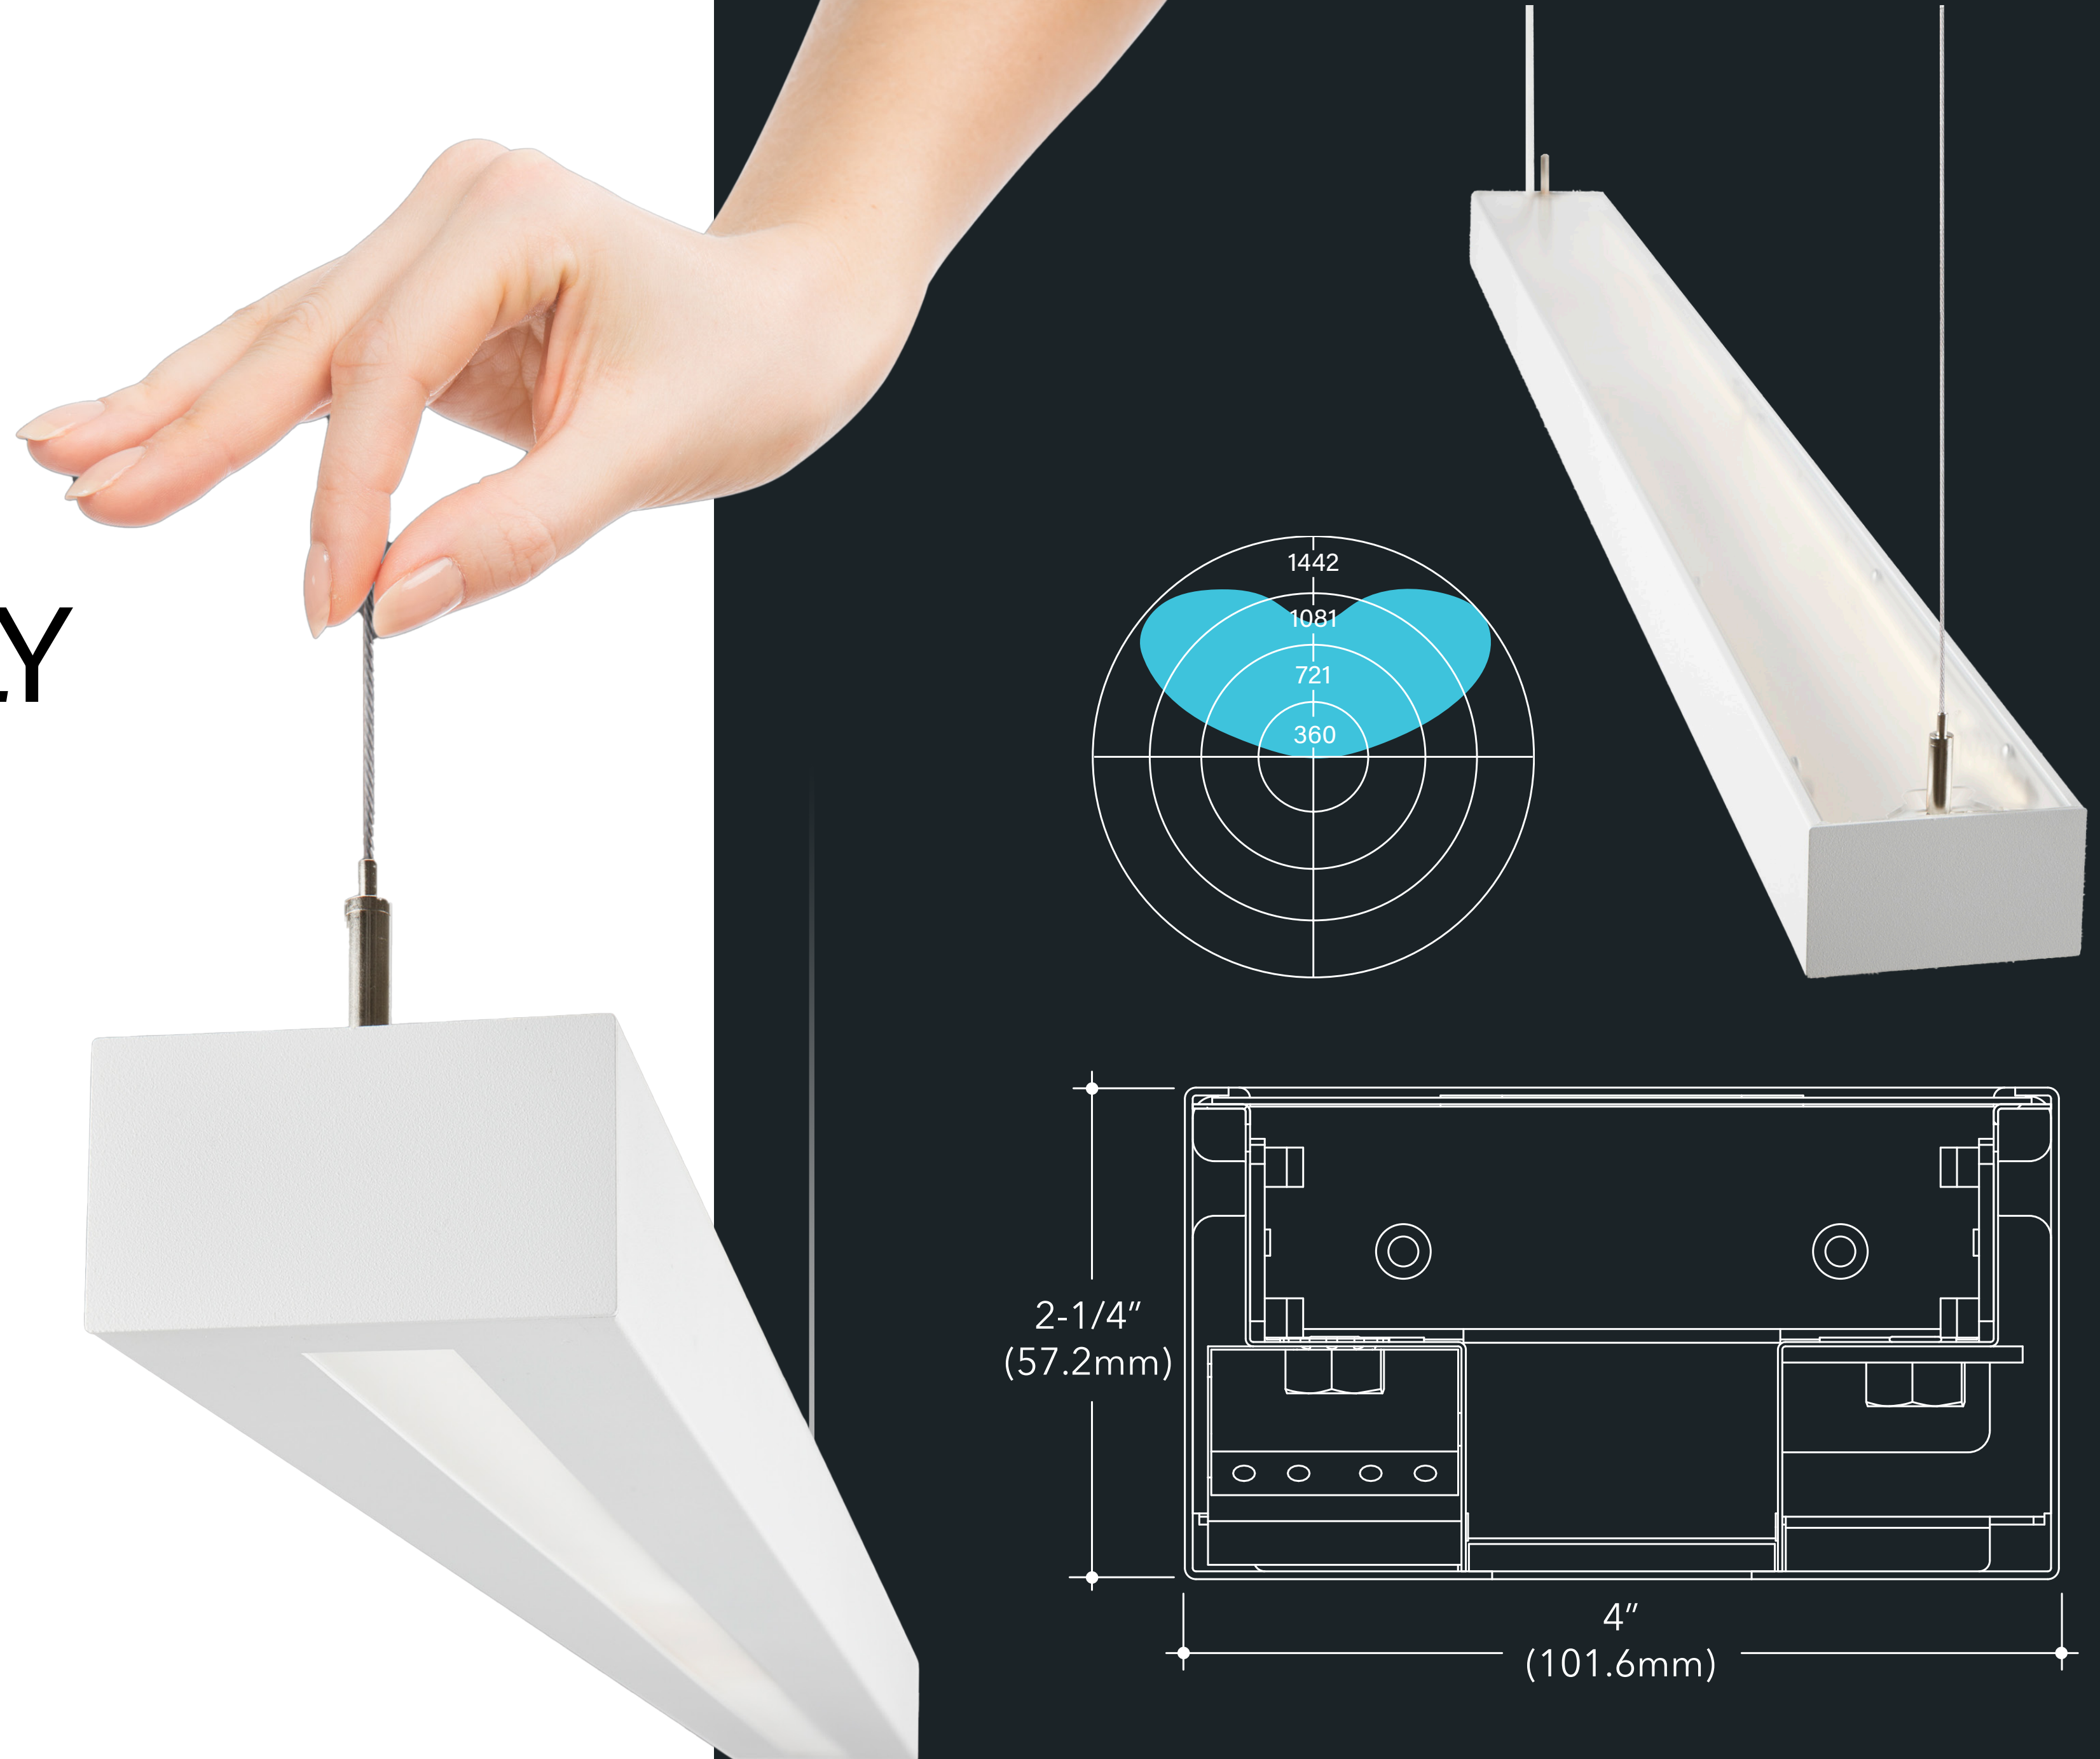

BRILLIANTLY INDIRECT

The 4" wide by 2-1/4" high profile provides a slim form factor while still allowing for the perfect punch of indirect light.

The wide throw enables the product to be installed in low-ceiling applications with 16' on-center spacing.

The lens opening creates a soft, uniform illumination down the length of the fixture.
